Suppliers of: Quality Security Alarm Systems,  
24 hour Monitoring, CCTV, Cameras, Digital Video Recorders

## Ground Breaking Work

Alice is her name and when she arrived she was in over 20 containers of parts to be assembled into the 10th largest machine of its kind in the world and the largest in Australasia!

Yes - she is the Tunnel Boring Machine that is currently boring its way underneath Auckland's suburbs, creating what will become 2 x three lane tunnels, with each tunnel 2.4km long and up to 45 meters below ground, it will connect the Western Motorway at Point Chevalier to the rest of the Western Ring Road.

The Cutting Head Diameter is 14.4m, it is 87m long with a top speed of 0.0005km/h (or 80mm a minute).

What has that got to do with Smartway Security Services you may ask?

Well they have been contracted to install CCTV Cameras to help with the construction and are currently installing the cameras on Alice and the conveyer belt system that is carrying over 800,000 cubic meters of earth out of the tunnels as she moves through the next 4.8km.

This is just one of the many exciting jobs that Smartway's Technicians get to work on.

Another recent installation saw them installing a network of Cameras, Wireless Links and Wi-Fi Access Points at Waikato Stud in Matamata to help them manage their business more efficiently.

Smartway MD Roger Bull said "They wanted to be more proactive in response to keeping an eye on their mares when they were in foal, they now keep an eye on the stables using their Smartphone's.

So if you are looking for Security CCTV Cameras, Alarms and Monitoring, Wireless Networking and Wi-Fi, or anything to do with electronic surveillance - at Home, around your Business or on the Farm - then give Roger at Smartway a call and get him to bring their CCTV Demonstration Truck around to show you.

Call Roger on 07 824 5566 for an appointment.
